Statement of REACH Compliance.

Flux A/S is the manufacturer of magnetic components and units; hereunder inductors and transformers for space, defence, high reliability and industrial applications.

Flux A/S declares that all materials and/or components used to manufacture RoHS compliant products are in compliance with the Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

Further the products do not contain any Substances of Very High Concern (SVHC) in excess of the thresholds limits specified in the Candidate list published by the European Chemical Agency (ECHA) January 17th, 2023 (233 substances).

Non-RoHS components manufactured for Space applications contains Pb due to the requirement of no pure Sn in the components i.e. SnPb is used in the tinning and soldering processes. Non-RoHS components are compliant to above REACH regulation except concerning the SVHC substance lead (Pb).

If you need further information, please do not hesitate to contact FLUX Sales department or FLUX QHSE department.

A handwritten signature in blue ink that reads "C. Winther". The signature is written in a cursive style with a long, sweeping underline.
